Still, stalled, stagnant

We need redrawers for *Funouhan*, *Demon Assassins*, *Destroy and Revolution* and *God*, you bastard, I wanna kill you!

We also need one for *Ouroboros* until our Head Redrawer sorts out his real life matters.

We need a cleaner for *Sprite*. Momimomi-sempai is designing actions to automate most of the advanced work on our raws, so *hopefully* the cleaner will have to do the tedious, but easy work that does not need great skill (in other words, *Dusting*).

If none of these show up, *Ouroboros*, *Sprite* and *Tetokuni Monophobia* will still come out, the first two in a sluggish pace.

As for the others, you can just as well wait until you croak. Right now, we have more translators than editors, a preposterous situation.

To apply, please take a test or show us a sample of previous work if you are experienced. Even if you can only work with us for a short period, we will still accept you. We're too understaffed to train people, though, so you need to know your stuff already.

Instructions to take our test can be found at *Death Toll Scanslations* home page (deathtollscans.net). If you have any questions, feel free to PM me there, or at *Batoto* (nickname *Kendama*).

Thanks for your attention.

END! デストロイ

Well, this one is back - but only if we get help

Things are not always as one wants them. My plan was originally to restart D&R as soon as chapters came out.

Alas, it was not to be. We couldn't find a redrawer, and scripts began to pile up on our side. After our Head Redrawer Sarrymast had some real life entanglements that are still keeping him from resuming his scanlation hobby, I started to recruit but had little success.

I became worried that the series would stall and sent a PM to Bala, our great redrawer who retired last year. I only meant to tell him, who is a fan of D&R, that the series would stall until we got a replacement for him. To my great delight, he volunteered to help, although he cannot do it at the same pace as before.

So this is how this chapter came to be. It's not certain that we will be able to make steady releases, though. Bala is already working on chapter 56, but he said we would do well to recruit another redrawer. (As if it were that easy to replace him!)

You will also notice that the cleaning is not perfect. Kabuto does the bulk cleaning on the raws we get from a private source, but he is too busy to put the finishing touches. So we could do with a second cleaner willing to remove the dandruff from characters' hairs (you only need the Magic Wand and Burn to do that), clean margin advertisements and maybe do some cropping. It's super-easy, even I can do it, but it's tedious, I won't lie about it. If you are interested, just pick a page from this chapter where the characters have dandruff on their hair, clean the dandruff and send it to me via PM. First past the post gets the job!

(But don't expect to be assigned to more challenging jobs without taking a test, okay? This is not a bypass to become a DT cleaner. And you need to be reliable. We don't want to have to wait more than a week for the finishing touches.)
